

# FIGHT HOTTER NEAR THE END

La Follette Men Evidently Following The Advice Of Their Leader--Connor Watchful.

## LEROY'S ELECTION ALMOST CERTAIN

Stout Supports Hudnall For President Pro Tem Of The Senate--General Interest In The Result Shown.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Dec. 28.—The jumping of Herman L. Ekern back into the race for the speakership of the Wisconsin assembly, as the La Follette candidate against E. W. LeRoy of Marinette, has served to place the Connor-Davidson men on their guard, and they are checking up their list of members of the next legislature to see where Senator La Follette is trying to break in with promises of federal patronage. There is little doubt that LeRoy will be the successful candidate if Ekern remains in the contest. In fact it is said by friends of the Marinette man that he is more assured of the speakership with Ekern as a candidate than with Ekern out of the race, for in the latter event there was thought to be danger of the LeRoy forces disintegrating and the election falling to Captain Pliny Norcross of Janesville or Estabrook of Milwaukee.

It is proposed to take up at this meeting the work that was left to a special committee to formulate when the convention adjourned last winter, the adoption of uniform eligibility rules, definite formulation of laws of amateur athletics, and similar pertinent and necessary legislation. It is understood that Princeton, Cornell and Annapolis will formally join the association and co-operate with it in its efforts to maintain a high standard of collegiate sport.

## YOUNG VETERANS AT A SECOND CAMPFIRE

Harry L. Gifford Camp Host at Novel Gathering With the G. A. R. Survivors.  
The second campfire gathering given by the members of the Harry L. Gifford Camp, No. 23, U. S. W. V., was held last night at the Grand Army hall and every one present enjoyed a good time. Members of the W. H. Sargent Post, No. 20, and their wives, together with the W. R. C. were guests of the occasion and an excellent program was rendered. These campfires are an old institution of the G. A. R. posts and have always been most enjoyable events. Now that the younger veterans have adopted them they will bring the older civil war veterans and the more recent Spanish war soldiers into closer relations to the benefit of all concerned.

# CAR SHORTAGE AFFECTED THE MOVEMENT OF CROPS

This Is The Announcement Of The Department Of Commerce and Labor Today.

[BY ASSOCIATED PRESS.]  
Washington, D. C., Dec. 28.—The car shortage which has had its influence upon the movement of internal commerce during the past month, according to a statement issued today by the bureau of statistics department of Commerce and Labor. While the statement declares it is impossible to determine to what extent the inadequate transportation facilities affected the movement of grain, live stock, meat and produce and in some localities lumber and coal in November, it says it can undoubtedly be affirmed they would have been much heavier had the railroads been fully able to cope with the situation. The marked decline is shown in the movements of certain important staples when compared with November of last year, but is an increase for the eleven months of the present year.

## PROMINENT RAILWAY MAN DIES SUDDENLY IN OFFICE

Alexander Cassatt Of The Pennsylvania System, Passes Away Of Heart Trouble.

[BY ASSOCIATED PRESS.]  
Philadelphia, Dec. 28.—President Alex. J. Cassatt of the Pennsylvania railroad company died suddenly this afternoon. The announcement of his death was made from his office shortly before two o'clock in the following bulletin: "President Cassatt died suddenly of heart disease at 1 p. m. today. The symptoms were those known to the profession as Stokes-Adams syncope and death was instantaneous."  
Alexander Johnston Cassatt was in the service of the Pennsylvania Railroad company for nearly half a century and was famous as a railway man throughout the world. He was born in Pittsburg in 1839. His father was a wealthy man but was not an advocate of luxury. He taught his son to be frugal and to rely on practical effort. When young Cassatt was still a youth his father's interests took him to Europe. He afterward entered the University of Heidelberg and obtained a liberal education. But the influence of German university life did not overcome his inborn preference for a business career, and on his return home he took the course at the Rensselaer Polytechnic institute, from which he was graduated as a civil engineer. This was in 1859.  
He went first to Georgia to assist in locating a railroad. In 1861 he was back in Pittsburg soliciting a place in the service of the Pennsylvania railroad. The best he could do at the time was to secure a position as rodman. By 1867 his ability had become so well recognized that he was engaged as superintendent of motive power and machinery for the entire system. In 1870 he became general superintendent of the system.  
Thomas A. Scott then paramount in Pennsylvania railroad affairs, took a fancy to him and was influential in his rapid promotion. When Scott became president of the road he had Cassatt made third vice-president. In 1880 he had risen to the first vice-presidency. Two years later he resigned his position and retired from business. He was only forty-three years of age, but he declared that he felt it time to retire.  
For seventeen years Mr. Cassatt held no office and took no active part in the business of the road. During the seventeen years of his retirement he traveled extensively in Europe and gave much of his time to the creation of a great stock farm at Chester Brook, Pa. Why Mr. Cassatt severed his connections with the Pennsylvania railroad and remained divorced from its affairs for so long a time was never satisfactorily explained to the public. There were rumors at that time that he was not in sympathy with the very conservative views of the president, Mr. Roberts, but his relations with Mr. Roberts, both then and afterwards, were of the friendliest character, and there was no evidence on which to base such a supposition.  
In 1899 Mr. Cassatt returned to the Pennsylvania as president. Early in 1906 rumors were afloat that Mr. Cassatt intended to resign the presidency owing to disclosures that officers of the company had been accepting graft from coal concerns. Mr. Cassatt was called home suddenly from Europe, where there were numerous changes among the heads of the departments, but Mr. Cassatt continued to hold the presidency.  
Among railroad officials throughout America Mr. Cassatt was acknowledged to be one of the master minds of transportation. He practically reconstructed the greatest railroad in the world in order to anticipate the coming problems of American commerce and industry. He controlled directly or indirectly more than 17,000 miles of road and directed the work of more than 100,000 men. There was said to be absolutely no detail in the whole problem of railroad management of which he was not technically and practically the master.  
In addition to his country place at Chasewald, Pa., Mr. Cassatt had a fine home in South Rittenhouse Square, Philadelphia. He was somewhat of a patron of sports and also a great lover of art. Mr. Cassatt married the niece of President James Buchanan. She and several children survive him. One of his sons is Major Edward B. Cassatt, who served for a time as military attaché of the American embassy in London.

**His Cigar Doesn't Taste Right**  
And Yet It Is the Same He Was Smoking With So Much Relish After Dinner, Last Night. Out of the Very Same Box, Too.

**IT ISN'T THE SEGAR — IT'S THE STOMACH.**  
Every smoker has experienced this peculiar condition of the stomach and liver, the result usually of imperfect digestion of food. And the blame is usually put on the cigar and not where it belongs.

Such men are usually high livers, hard workers mentally, living under high pressure and high draught, and it doesn't take a great deal to disorder the stomach or render the liver torpid.

They should make it a practice to use some tried and reliable remedy like Stuart's Dyspepsia Tablets, that will aid Nature and not force it and will take care of the sudden attacks of acute indigestion.

The use of these tablets is not to be confounded with the patent medicine habit. Stuart's Dyspepsia Tablets are not a patent medicine, but are composed of the very elements which nature provides the healthy stomach to do the work of digestion—pepsin, diastase, golden seal, etc. There is no secret in their preparation—they are absolutely pure and therefore all the world uses them.

No matter how disordered the stomach may be, it will right itself if given the chance. Stuart's Dyspepsia Tablets digest food where the stomach can't, give the abused stomach and intestines a rest, and offer renewed strength to the worn out glands and muscles.

Brain workers can rely on Stuart's Dyspepsia Tablets, no matter how tense the strain. All druggists carry them in the fifty cent packages, or if you prefer a free trial package can be had by sending your name and address today. F. A. Stuart Company, 71 Stuart Building, Marshall, Mich.

Such men are usually high livers, hard workers mentally, living under high pressure and high draught, and it doesn't take a great deal to disorder the stomach or render the liver torpid.

The lovers of the artistic drama in this city look forward to delightful pleasure next week on the occasion of the visit of the Morris Comedians to the Myers theatre. The company has been carefully selected, special care having been exercised in the matter of engaging only those of ability for the various parts. The company will open its engagement Monday night with "Why Women Sin."

The strands are so cleverly woven that the spectator is carried from laughter and tears to tears and laughter in the same breath. The author's treatment of the story, its startlingly fresh and unconventional. These qualities coupled with Miss Harrison's crisp style, which has made her so famous in "The Wizard of Oz," "Babes in Toyland," "The Land of Nod," etc., go to make a production equaled by no company in

FROM THE "DISTRICT LEADER". Ladies free Monday under usual conditions. The Morris Comedians will open at the Myers theatre for a week engagement, beginning Monday, Dec. 31, matinee New Year's day at three o'clock.

Aside from the fact that "The District Leader" is equipped with the brightest snappiest chorus on the road and mounted in a fifty-thousand-dollar scenic setting and costuming, at the same time it has the heart interest in the story itself that appeals to every patriotic and loving American. The story deals with the vital living side of our great commonwealth, namely, politics, love and sun.

**MAN AND BOY DROWNED.**

Former Loses Life in Vain Effort to Save the Lad.

Morristown, N. J., Dec. 27.—Before the eyes of his young wife, George Davis, aged 25, Wednesday lost his life in an unsuccessful attempt to rescue John Arke, an eight-year-old boy, from drowning. The boy went out on the ice of the Rockaway river and broke through. Davis and his wife saw Arke drop into the water and Davis cut down the clothes line in his yard and tied one end about his waist. He gave the other end to his wife and started toward the boy, who was floundering about in the broken ice.

Lying down, Davis reached out and seized Arke, and shouted to his wife to haul in on the rope. She drew her husband back from the hole until the boy was out of the water. As she started to pull again the rope broke and the man and boy slid back into the water and were drowned.

## Annual Florida Auto Races

Time Killers Hold Great Meet on Beach Jan. 22-27.

List of Big Events—"The Two Mile a Minute" Contest.

The list of events for the fifth annual winter automobile meet on the Ormond-Daytona Florida beach was decided upon recently, and the fifth annual international speed carnival promises to be in point of entry the largest of the many tournaments given in this country or abroad. The programme was submitted to President Asa Paine and the board of directors of the Florida East Coast Automobile association for their approval. It is quite possible that a long race of 300 miles will be added to the programme.

It is now well known that some of the greatest speed creations in automobile engineering construction will be seen "charging" Father Time on the dates Jan. 22 to 27, which have finally been adopted as the dates for the fifth annual meet.

As will be noted, the programme of races centers to nearly every style of machine. The 100 mile "Minneapolis" cup race, for a car preselected by the Min-

JOSEPH TRACY, WHO WILL RACE AT ORMOND BEACH.

neapolis Automobile club and citizens of the city, will undoubtedly furnish a great race, as was the case last winter when Walter Clifford-Earp of London drove his racer the last fifty miles on three tires, beating the world's record for the distance. It will be remembered that the Napier driver, when he punctured, whipped out a knife and cut the tire off the rim of the wheel and drove the last half of the century of miles on three tires, the smooth, hard bench making no impression on the bare steel rim of the wheel.

The two mile a minute race for the speed crown will be given again this winter, which similar event was won last year by the flying Frenchman Victor Demogogot. This winter if the Frenchman is a starter, he will have as a competitor not only fast foreign drivers, but also at least four American experts, one of whom will drive a New York production which is expected to travel five miles in two minutes.

The mile race for the handsome \$2,000 trophy for the international mile given by St. Thomas Dewar of London will of course command the same attention it commanded the past two winters because of the fact that the world's record for one mile was reduced in each contest. Fred Marriott won the cup last winter in the marvelous time of 28 1/5 seconds. It is expected that at least two seconds will be clipped from these figures at the coming meet.

The list of events in part is as follows:

**TOURING CARS.**

One mile: American championship; "mile a minute" touring cars, to carry at least four passengers; flying start.

Five miles: \$1,500 or less touring cars designed for four or more passengers; standing start.

Five miles: over \$1,500 and including \$3,000 touring cars, designed for four or more passengers; standing start.

Five miles: touring cars over \$5,000 designed to carry four or more passengers; standing start.

Thirty miles: all classes American touring cars; championship; first three to represent the United States in international touring car championship.

**FOREIGN TOURING CARS.**

Thirty miles; open; all classes; first three to compete in thirty mile international touring car championship.

**TOURING CAR SPECIAL.**

Thirty miles: international championship; open to first three cars in American and foreign car championship.

**OPEN TO ALL.**

One mile: Dewar world's championship trophy; flying start.

One mile: gasoline cars only; flying start.

Two miles: "two mile a minute" speed crown; flying start.

Five miles: international world's championship record race; flying start.

Ten miles: standing start.

Twenty miles: handicap.

Fifty kilometer record race; flying start.

One hundred miles: Minneapolis international world's championship; standing start.

**RECORD TRIALS.**

Facilities will be provided for record trials by all classes of cars entered in the races at the following distances: One kilometer, one mile, five miles, ten miles.

The Young Corbett-Murphy Fight

Occurs Before the National A. C. of Philadelphia on Jan. 9.

At last Young Corbett and Tommy Murphy, the sensational New York lightweight, have been matched. A lively talk fest, covering many weeks of ambitious press agent work, preceded the signing of the papers.

The fight was arranged to take place Jan. 9 before the National A. C. of Philadelphia. It is to be a six round contest.

Harry Pollok, representing Young Corbett; Johnny Oliver, representing Murphy, and Harry Edwards, for the

T. G. Murphy of Philadelphia.

It was specifically mentioned on the face of the agreement that the club itself would post a forfeit of the same amount.

This fight will be a good drawing card for the club and will settle a much disputed question as to whether the Kid is in the same class with Corbett. His friends are going to back him to whip the Denverite and say that the match will prove of greater interest than would have been the Corbett-McGovern contest.

Gardner of Carlisle Eleven Appointed to West Point.

William J. Gardner, left end of the Carlisle Indian football team, has received an appointment to the West

Point eleven.

He received the appointment from South Dakota, his native state. Gardner will be a strong addition to the West Point eleven.

He made a fast running-mate to Captain Exendine last season, and his playing against Harvard, Pennsylvania and Minnesota was exceptionally brilliant.

## 540 PRESENT AT MASONS' BANQUET

MUCH CREDIT DUE COMMITTEES IN CHARGE OF FEAST.

FULLY 150 FROM AWAY

Hundred and Ten Names on Register Besides the Thirty Mentioned in Yesterday's Paper.

The dedication of the new Masonic Temple at the corner of South Main and Court streets yesterday afternoon and evening was one of the most notable events in the history of fraternal orders in Janesville. It marked the merry ending of one period in the life of masonry in the city and the happy opening of a new one. The dedicatory ceremony was performed by officers of the Grand Lodge of Wisconsin and was accompanied by the ritual of the organization. The arrangements for the banquet, post-prandial program, reception and ball, had been made carefully and perfectly and each portion of the celebration will go down in the records of the local lodges as a success in every particular.

Immense Crowd Well Served. Above all else the banquet was a credit to Janesville masons and much praise is due those who were in charge. Not more than four hundred persons were expected and about five hundred and forty were served. Three long tables were spread in the dining hall and the chairs about these were filled from five in the afternoon until eight in the evening. The feast was prepared and served by the ladies of the Order of the Eastern Star, directed by Mrs. Louise Bowerman, caterer. The banquet committee consisted of Mesdames W. H. Merritt, chairman, H. L. McNamara, P. R. Strickler, J. B. Stevens and P. H. Baack and the members of the table committee were Mesdames J. P. Thorne, Mae Smiley, A. L. Wilcox and C. H. Weirick. The menu was as follows:

Pressed chicken	Ham
Creamed potatoes	Pickles
Olives	Coffee
Rolls	
Fruit salad	
Ice cream	Devil's food
White cake	Salted peanuts

Post-Prandial Program. It was not until eight o'clock that the post-prandial program was inaugurated by Toastmaster Alexander E. Matheson. In opening the Hon. Ogden H. Fethers was introduced and presented a gavel to be used on the occasion and thereafter to be the property of the Janesville Commandery, K. T. Mr. Fethers spoke in behalf of William H. Fethers of the town of Rock, who furnished the masonry for the gavel. Thomas C. Howe, speaking on "St. John's Day and Our New Temple," dwelt in a very interesting manner on the meaning of the day and gave various facts concerning the building, its future use and significance to masons in Janesville. "Masonry in the Training of Men for Citizenship," was the theme of Charles C. Rogers, a grand trustee from Milwaukee, and he talked in an eloquent manner of the preparation that masonic teachings provided for men as citizens. Mrs. Luther of Madison, worthy grand matron of the Wisconsin Grand Chapter, O. E. S., spoke beautifully on the relationship between the Eastern Star and the masonic order. Past Grand Master N. M. Littlejohn of Whitewater gave to masons some excellent advice drawn from the teachings, precepts and symbolism of the order. Mr. Littlejohn is the oldest member in Wisconsin and a man whom masons always delight to hear. Grand Secretary William W. Perry of Milwaukee, the "bishop of Wisconsin masons," spoke entertainingly of Watson's "Bonnie Briar Bush" and drew some valuable lessons from the life and death of Dr. McClure, mentioned in that book. W. W. Willis displayed a number of stereoscopic pictures, representative of scenes relating to our national history. Last of all was the American flag and when shown the audience arose and sang "America." The quartet, consisting of Mesdames C. F. Yates and Fannie L. Clark and Cove N. Van Kirk and George Paris, led the singing and during the program rendered several selections.

Reception and Ball. In the East Side Odd Fellows' hall a reception and ball was held at ten o'clock. The attendance was large and the affair was a fitting close for the very auspicious day. Music for the dancers was provided by the Knell and Hatch orchestra, which had played during the progress of the banquet.

Register of Visitors. Following is a list of visitors who registered at the temple and were not mentioned in the Gazette of yesterday:

## ADJOURN CASE IN MUNICIPAL COURT

State of Wisconsin Versus Freeman Smith is Adjourned Until January Fourteenth.

Judge Field this morning adjourned the case of the State of Wisconsin vs. Freeman Smith until the fourteenth of January. This is an action of assault and battery in which Frank McIntyre is the complaining witness. The case was appealed from Justice of the Peace Tarpley of Milton. It is alleged that as Smith was walking down the street of Milton on the sixth of last September that McIntyre called some thing to him. Smith came back and said: "Did you mean that for me?" McIntyre then hit him twice and knocked him down once. It is also alleged that Smith drew a gun on McIntyre and for this was arrested.

## BUYS FARM INSIDE THE CITY LIMITS

Dr. Pierce Purchases Fourteen Acres of Land on Milton Avenue For a Home.

Dr. C. T. Pierce has purchased fourteen acres of land on Milton Ave. for home, his old Milton Ave. home forming part of the consideration in the transfer. The land which he has purchased is just within the city limits. The property now has a house on it as well as some barns and is known as the old McBride place located next to the Scofield property. Dr. Pierce expects to move to his new home in the spring. Real estate along Milton Ave. has been more on the market since the interurban railway has become more certain and several deals are being considered for next spring.

## ARE SUSPECTED OF STEALING STOVES

Two Men Arrested Charged with Having Helped Selves to Railroad Property.

John Erlywine, who lives on Washington street, and Charles Grimshaw, who has a home on Franklin street, were arrested today and closely questioned by the police relative to the alleged theft of stoves from the laborers' cars of the North-Western road. The two men in question, it is alleged, sold two stoves last Saturday to a junk dealer, which have been identified as railroad property and their accounts of how they secured them was so flimsy that they are held awaiting a more close examination. One said he found the stove he sold; the other, he bought it from a boy.

## BRIEF LOCAL NEWS.

A Christmas Party: A company of relatives and friends gathered at the home of Mr. and Mrs. Carl Child of La Prairie Christmas day. After partaking of a right royal dinner they repaired to the parlor, where the Christmas tree was unloaded of its presents and distributed by Frances and Tessie May Child. Everyone was generously remembered; not even Roscoe, the great Dane dog, was forgotten.  
Name Not on Books: An unknown man created a disturbance this morning at Rumrill's tobacco warehouse. He said that he had come to draw his pay when to the knowledge of Mr. Rumrill he had never worked for him. The man became somewhat excited and was put out of the office. The police were called, but when they reached the scene of action the man had disappeared.  
Adjourned Until Friday: Justice Rees this morning adjourned the case of Broese vs. C. D. Bjelke until next week Friday. The case of Frank Burdick vs. A. A. Russell was heard in part yesterday and the hearing will be continued this afternoon.

## SOCIETY DOINGS OF THE PRESENT WEEK

Card Clubs Enjoy a Taste of Christmas Festivities and a Mock Tree.

Mrs. C. S. Putnam and Mrs. Mary Doty entertained the "J. J. Club" at their annual Christmas tree and banquet yesterday afternoon, at their home at 252 Park Place. An elaborate dinner was served at noon, the table and the dining room being decorated with a Christmas tree and holly. After the dinner a "joke" Christmas was had, each guest receiving some clever present suited to her particular tastes or talents. The guests played bridge the rest of the afternoon and all had a most enjoyable time.

Mrs. E. P. Doty will entertain the members of a ladies' card club this afternoon at her home in Forest Park.

The first dance of the series to be given by the Young Club this winter will be held next Tuesday night at the East Side Odd Fellows' hall. It has been decided that all these dances will be informal this year.

## SCIENTISTS TALK OF BIG FORTUNES

CONCENTRATION OF WEALTH IS  
ROUNDLY DENOUNCED.

PAPER BY HENRY L. CALL

Attacks Rockefeller's Right to Have  
His Money—Charles A. Conant  
on the Currency Question.

New York, Dec. 28.—The concentration of wealth in the hands of a comparatively few persons was vigorously denounced and just as earnestly defended at the opening sessions Thursday of the fifty-seventh annual meeting of the American Association for the Advancement of Science.

In a paper on "The Concentration of Wealth" Henry Laurens Call, of Washington, D. C., attacked the right of John D. Rockefeller to his fortune on the grounds that, he asserted, it was not the result of natural causes, but had been created through the activity of corporations which the speaker termed "vicious."

During a subsequent discussion of "The Evolution of Property" Louis G. McPherson, assistant to the late Samuel Spencer as president of the Southern railway, took occasion to reply to Mr. Call. He declared that Mr. Rockefeller had had his financial struggles and had done much good which was generally lost sight of in the criticism which came with success. He told of Mr. Rockefeller's early attempt to secure \$25,000 with which to construct a pipe line for oil. One man who refused aid met the financier where the pipe line had been laid. To him Mr. Rockefeller said: "I built that pipe line to make oil cheaper and I succeeded. I cut the cost more than half. And yet they find fault."

**When Rockefeller Was Poor.**  
Mr. McPherson then less seriously told of a dinner party several years ago at the Rockefeller home, when Mrs. Rockefeller explained the absence of oysters by saying, "We like them, but are too poor to have them." This to illustrate Mr. McPherson's point that a man might be worth \$100,000,000 and still be short of ready cash if he kept his factories in operation.

Wealth and railroads were but two of many subjects discussed by the speakers. After convening at Columbia university, where they were welcomed by President Nicholas Murray Butler, the several hundred scientists separated into various groups, where many general lines of discussion were opened. Dr. W. H. Welch, of Johns Hopkins university, Baltimore, the new head of the association, talked on medicine, and Charles A. Conant of this city on currency.

The feature of Thursday night's session was the address of Dr. C. M. Woodward of St. Louis, the retiring president, who spoke on "The Science of Education."

**Conant on Currency Question.**  
Most interesting, perhaps, among the several sectional meetings was that of the section of social and economic science. Charles A. Conant, vice president of the Morton Trust company, who presided, delivered an address on "Aspects of the Currency Question."

He said that there never was a time when people were more interested than now in banking reform. Though it was too much to expect both houses of congress to pass at once a satisfactory measure, yet in due time sound legislation must result. Otherwise our prosperity will be arrested, our rapidly absorbed currency will prove entirely inadequate for business needs and we must be put at a great disadvantage at home and in our competition with foreign nations in the open markets of the world.

The proposed bank note reform, he declared, is not a measure intended to aid the banks, but to relieve restrictions upon the use of credit in the form in which it is found to be useful. If the government will relieve the out-of-date and outgrown restrictions and require proper security there can be no danger to any economic interest involved.

Mr. Conant said a flexible currency was desirable and that the banks were not asking any actual privileges, but that the government was being sought for the absolute security and entire convenience of the commerce of the country. He believed that the amount of notes in circulation should be left to a free play of economic forces.

**Concentration of Wealth.**  
Mr. Call's paper was entitled "The Concentration of Wealth."

"As a result of this wealth concentration," Mr. Call said, "industrial society is practically divided into the two classes, of the enormously rich and the miserably poor. These conditions come from a monopoly of land and mineral resources; of money, of transportation and other public utilities, as also of industry, and to law must we look for their correction. The corporation should yet be made co-operative, instead of as now, the instrument of private greed. The ownership of public utilities should be in the public, as also the control and distribution of money. The corporation principle and function should be extended to mines, as also to lands in cities and elsewhere required for joint use and occupancy."

**Urges Limit to Fortunes.**  
"Moreover, in the taking charge of these properties by condemnation proceedings some restitution should be made to the public of these enormous and iniquitous accumulations of which it has been despoiled. In this complex

well as the most feasible solution, would be to fix some maximum limit as the amount which any man can be said to have acquired honestly or which he could have acquired under just conditions, all above such reverting to the public from the holdings in the corporations. It would conform our institutions to the present social cooperative nature of industrial society and inaugurate in the most practical manner the one solution of our present social and industrial problems, practical, scientific, socialism."

**ROOSEVELTS AT PINE KNOT.**  
President, Family and Guests Begin  
Four Days' Outing.

Charlottesville, Va., Dec. 28.—President Roosevelt, his family and guests reached Pine Knot, Mrs. Roosevelt's cottage in the southern part of Albemarle county, at five o'clock Thursday afternoon. Their outing will continue until Monday.

The party was joined here by E. C. Hamer, Jr., a young naval lieutenant, and Richard Wilmer, young son of Dr. Wilmer, of Washington. Those who came from Washington are:

President and Mrs. Roosevelt, their five children, Miss Ethel, Theodore, Jr., Kermit, Archie and Quentin; Rear Admiral P. M. Rixey, surgeon general of the navy; M. S. Latta, assistant secretary to the president and Miss Langdon, a friend of Miss Ethel's. L. S. Brown, general agent of the Southern railway, also accompanied the president, but he went only as far as North Garden. Mr. Latta will make his headquarters at Charlottesville, and will make trips to Pine Knot when business develops requiring the president's attention. There is telephone communication also between Charlottesville and Plain Dealing, the Wilmer county home, adjoining Pine Knot, of which use will be made for the president in case of necessity.

**LYNCHING AT LAS ANIMAS.**

Masked Mob Takes Murderer From Jail and Hangs Him.

Las Animas, Col., Dec. 28.—Lawrence Leberg was lynched here Thursday night for the murder of Henry Lavenmeyer, by a mob of masked men. About 40 men entered the jail shortly before nine o'clock and easily overpowered the sheriff, under sheriff and two other officers and locked them securely in a room of the building.

Then men went to the cell occupied by Leberg, struck the shackles from his limbs and took him from the jail. A larger number of men and boys were waiting outside the walls and when the prisoner and his captors appeared they formed a procession and marched a short distance from the jail and banged Leberg to a telegraph pole. The self-confessed murderer made no resistance and made no statement.

Before the mob reached the jail Leberg heard them coming. He arose from his cot, dressed himself coolly and awaited the coming of the avengers of Lavenmeyer's death. The leader of the mob made no effort to disguise himself, and it is declared that the ringleaders are known to the jail officials.

**Former Railway Agent Arrested.**  
Denver, Col., Dec. 28.—Frederick F. Boehm, formerly city passenger agent of the Lake Shore railroad at Niagara Falls, was arrested here Thursday on the charge of embezzling several thousand dollars from the railroad company. Boehm has been in Denver for about a year. Under the name of Frederick F. Stanton he has been employed in a position of trust by the Vankeleek Bacon Investment company. He is said to have confessed to a portion of the shortage charged against him.

**County Clerk Kills Himself.**  
Liberty, Mo., Dec. 28.—The dead body of Lee B. Soper, who had just completed his second term as county clerk of Clay county, was found Thursday in a shed in the rear of his home. Nearby lay his 22 caliber target rifle and a bullet hole was in his head. It is believed he committed suicide. He was 58 years old and married. Despondency over ill health is believed to have impelled him to take his life.

**Dr. F. E. Beckwith, New Haven, Dies.**  
New Haven, Conn., Dec. 28.—Dr. Frank E. Beckwith, formerly professor of obstetrics at Yale medical school, died Thursday from apoplexy. He is the third of the city's prominent physicians to die within four days. The others were Drs. Timothy H. Bishop and Walter Judson. Dr. Beckwith was 59 years of age.

**Cincinnati Judge Is Dead.**  
Cincinnati, Dec. 28.—Francis O. Ampt, judge of the insolvency court, died at his home here Thursday, aged 55 years. He had been ill for some time. Judge Ampt was regarded as an authority on all matters relating to public works and the right of corporations.

**Three Drown in Missouri River.**  
Norfolk, Neb., Dec. 28.—Three men were drowned in the Missouri river north of here on the state line Thursday.—Herbert Cushman, aged 60; Ed Slate, aged 28, and Dan Slate, aged 22.

**Priest Found Dead in Bed.**  
Kansas City, Mo., Dec. 28.—Father M. J. O'Dwyer, founder and pastor of the Sacred Heart Catholic church of this city, was found dead in bed at the parochial residence Thursday.

**Christmas Panic Fatal to Many.**  
Manila, Dec. 28.—The governor of the province of Oriental Negros has reported that 14 natives were killed and 13 injured in a panic at a mid night Christmas mass at Tanjay.

## VICTIMS OF YAQUIS ARE ALL MEXICANS

EIGHT SLAIN AT LENCHO AND  
OTHERS ON RANCHES.

SITUATION IS SERIOUS

Savage Outlaws Burn Tent Houses of  
Railway Gang and Shoot  
Down Fleeing Work-  
men.

El Paso, Tex., Dec. 28.—The details of the Yaqui Indian outbreak at Lencho station on the Cananea, Yaqui River & Pacific railroad, a branch of the Southern Pacific in Sonora, Mexico, Saturday night, in which eight Mexicans were killed and all tent houses burned, have been received here.

No Americans were killed, although it is certain that but for the timely arrival of a work train with a large crew of laborers Foreman Thompson and his wife would have been killed.

Reports from the same vicinity tell of murders and outrages perpetrated by the Yaquis Thursday and Friday nights. The victims were all Mexicans, who were taken by surprise on their lonesome ranches. Details of the outbreak are extremely meager, but show that the situation is serious.

**Indians Had Been Restless.**  
For several weeks past restlessness has been observed among the Indians, but an outbreak was hardly anticipated. No unusual preparation had been made for a Yaqui attack and most of those killed were shot down before any effort at defense could be made.

The band of outlaw Indians is said to number about 100. Rumors of their depredations were rife Saturday, when many ranchers fled to the towns for safety and reported a number of murders in the district southeast of Guaymas. It was not believed, however, that the Yaquis would dare to attack a railroad station. Lencho is one of the smallest stations on the Cananea, Yaqui River & Pacific road. About 25 men under Foreman Thompson are employed there, engaged in well-boring. No sentries had been posted and the first intimation of the attack was a volley of rifle shots fired into the tent houses.

**Shot Down the Mexicans.**  
Immediately after the houses were set on fire, and by the light of the flames the Yaquis shot at the frightened Mexicans who were trying to escape. The reports received here say that in addition to the eight men killed in the station a number of Mexicans were wounded. At a time when the residents of the camp, including Thompson and his American wife, seemed doomed, the whistle of a work train was heard, and a few minutes later the train pulled into the station. The crew of the train immediately went to the assistance of the people at the station and the Indians took to flight.

Mexican troops are now in pursuit of the band and it is believed the Indians will be soon run down and captured. Soldiers are being rushed to the troubled district in large numbers, as the government is determined to make short work of the latest outbreak. It is believed that the outbreak will not prove general and that the trouble has all been caused by one large renegade band.

**Twelve More Reported Killed.**  
Nogales, Mex., Dec. 28.—Details are arriving here of the butchery of a party of Mexicans by Yaqui Indians near Valencia, 60 miles below Guaymas. Eleven Mexicans and one American were killed and, from all accounts, there were over 100 Indians in the attacking party. The employees of the Southern Pacific railroad in that section are frightened. It is said many are leaving and that the massacre may delay the road to Guadalupe.

**Buried in East River Tunnel.**  
New York, Dec. 28.—Thomas Brown, a foreman, is supposed to be buried under tons of sand in the Long Island City end of the Belmont East River tunnel. The laborers struck a fault in the earth Thursday and the thrush of water and sand drove them from the shaft. Brown delayed to make sure of the escape of his men, and has not since been seen.

**Hongimuller Not to Resign.**  
Washington, Dec. 28.—Baron Hongimuller, the Austro-Hungarian ambassador, Thursday denied the rumor that he will resign the Washington mission. The baron communicated with his government concerning the report and said Thursday that he made the denial on the authority of his home government.

**Commercial Teachers Meet.**  
Cleveland, O., Dec. 28.—The National Commercial School Teachers' federation convened here Thursday with an attendance of between 400 and 500 delegates, representing all parts of the country.

**French Bishop Is Fined.**  
Nancy, France, Dec. 28.—The correctional here Thursday fined Bishop Tetrinaz \$10 for striking a gendarme on the occasion of the former's expulsion from the episcopal residence here.

**Freeze to Death in Austria.**  
Vienna, Dec. 28.—Heavy snowstorms throughout Austria-Hungary for the past three days have resulted in the death of a number of persons from freezing.

## PINCHOT DEFENDS LAND WITHDRAWAL

REPORT ON THE 4,000,000 ACRES  
IN INDIAN TERRITORY.

FOREST RESERVE NEEDED

Was Asked for Primarily by the In-  
dians—Secretary of the In-  
terior Did Only His  
Duty.

Washington, Dec. 28.—Gifford Pinchot, chief of the forest service, Thursday approved a rough draft of a report to be submitted to the secretary of agriculture relating to the 4,000,000 acres of land in the Indian territory whose withdrawal for forest reserve purposes brought about both an investigation and criticism of the secretary of the interior and agriculture, by a senate committee.

The report will be a defense of the withdrawal of the lands in question located in the Choctaw and Cherokee nations in the Indian territory, and will show, first, that the proposed forest reserve about which so much has been said in criticism, particularly of the secretary of the interior, was asked for primarily by the Indians themselves and other local people; second, that the maintenance of a forest on the proposed area will furnish a much needed continuous supply of timber and wood for local use and also prevent disastrous floods along a thousand miles of the Red river running through Texas, Arkansas and Louisiana where immense sums of money are now being expended for levees by local people and the government; third, that the forest reserve would not take up all the residue of land after allotments to the Indians.

**Was Secretary's Duty.**  
The report will further insist that the secretary of the interior's action in temporarily suspending allotments not only was within his right, but he would have been remiss had he done otherwise.

As a result of careful inspection at the hands of one of the most reliable men at the forestry bureau, a recommendation will be made to the secretary of agriculture, who will undoubtedly transmit the same to the secretary of the interior, that the area originally withdrawn, some 4,000,000 acres, can be properly reduced to half the size by leaving out the part in the Cherokee nation and all the lands within 20 miles of the Missouri, Kansas & Texas railway in the Choctaw nation.

**More Than Half Farm Land.**  
This report, which it is expected the secretary of the interior will make public as soon as it reaches him, will show that considerably more than half of the reduced area withdrawn for forest reserve purposes is valuable for agriculture and can be allotted in the near future after examination to determine its arable character.

Notwithstanding the contention that the secretary of the interior had a warrant of law in which to separate the lands in question, the contention being that they primarily belong to the Indians, it is understood that the withdrawal as outlined above will take place and that the Indians have the right to try out the authority of the secretary in making the withdrawal in the courts, one case already having been commenced on the part of an Indian against the secretary of the interior.

**Tenth Victim of Wreck Is Dead.**  
Minneapolis, Minn., Dec. 28.—M. Brockert, of Minneapolis, died Thursday at the hospital at Enderlin, N. D., from injuries received in the railroad wreck early in the week. His arm was broken and there were internal injuries, the latter causing death. This makes the total death list of the week number ten.

**GRAIN TIE-UP NEAR END.**  
Hundreds of Cars Arriving in Minneapolis Every Day.

Minneapolis, Minn., Dec. 28.—The backbone of the grain tie-up will soon be broken, as hundreds of cars of grain are now coming into the city daily, particularly over the Great Northern, Northern Pacific and Soo. The roads which handle the most grain. Great Northern officials assert that they will have handled over 7,000 grain cars locally by the end of December, as against 3,000 in the month of November. The Northern Pacific will have handled between 1,200 and 1,500 cars at the end of December, as against 558 in November.

The other roads do not show any increase worthy of mention, but the increase on the two big roads is growing daily and it is therefore believed that the tie-up will not last long.

**Aged Ohioan Dies on a Train.**  
Litchfield, Ill., Dec. 28.—W. D. Hill, aged 73 years, an attorney of Defiance, O., and once representative of the Defiance district to the legislature, died suddenly Thursday on a Wabash train while on route to Los Angeles, Cal., for his health.

**Lover of Princess Is Married.**  
Brussels, Dec. 28.—Andre Giron, who achieved notoriety three years ago by eloping with the then crown princess of Saxony, was married here Thursday to Mlle. Jeanne Bream.

**The Stag Hound's Secret.**  
Hounds with very fine noses are not and perhaps never have been, too common. The hound that never loses the line, but threads his way through coverts, along roads and turns with the stag when the latter runs beside a hedge, is invaluable, and such hounds help greatly to the death of the stag. There is another quality which is invaluable and rare—the faculty of discriminating not only the scent of the quarry from that of all others, but of distinguishing the scent of the hunted animal from that of others of the same kind. When we consider how fox-hounds in a well preserved country are allowed and perhaps sometimes even encouraged to change foxes it is remarkable that they should have retained any of this quality of their stag-hound ancestors. But the fact remains that of the drafts which make up our stag-hound kennels some few hounds in each do develop the faculty of holding to the line in spite of the many temptations to change, thus reverting to the qualities of their ancestors.—T. F. Dale in Blackwood's Magazine.

**The Longest English Novel.**  
"Clarissa, Harlowe," written by Samuel Richardson (1689-1761), and generally regarded as his masterpiece, is the longest novel in the English language. It ran to eight volumes, and in publishing it Richardson said: "Ashamed, as I am, of the prolixity, I thought I owed the public eight volumes in quantity for the price of seven." He knew very well that it was not a page too long for the public for which he wrote, and the result justified his faith in himself as an author and in the public appetite, which, created by himself in the first instance by his "Pamela" (another novel of great length), grew by what it fed upon. His third work, "Sir Charles Grandison," extended to seven volumes. "We do not," says Professor Masson, "read Richardson's novels now. These are the novels of eight to ten volumes, written in the tedious form of letters and recording conversations and meditations in which the story creeps on inch by inch without so much as an unexpected pistol shot or a trick of harlequin or pantaloons to relieve the attention."

**How Words Change.**  
Words undergo all sorts of changes, not so much in form as in meaning. Their forms remain traceable, but the way in which many of them shift their meanings is very interesting and remarkable. Take our common word "re-entertainment." It now means manifestation of anger or displeasure. In its origin it meant almost precisely the opposite. It signified civil attention or recognition of a friendly act. To equivocate was at first merely to call two things by the same name, not to utter a falsehood. Hypocrite meant originally nothing but a player or actor and had no sinister meaning. Tinsel at first was made of the precious metals, and the word was in good repute till detection of repeated frauds caused its degradation. The word "admission" once meant wonder merely. Now it also means approval and delight. There are thousands of words in English that thus have changed their signification, some for the better, some for the worse. But their forms have changed little, in many cases not at all.—Portland Oregonian.

**How to Register.**  
"There's the ordinary, everyday style," J. Y. Smith and wife, sometimes abbreviated to J. Y. Smith & wif. Then there's the more approved society form, "Mr. and Mrs. J. Y. Smith," that's oftenest written by the wife when registering for herself and husband. But the real Baringgame and Newport of it is "J. Y. Smith" on one line and on the next "Mrs. J. Y. Smith." When they come that way they're generally the real thing.

"One night, down at the old Palace, two college fellows drifted in late and sized up the book," says the San Francisco Chronicle. "The last two registrations were 'O. P. Dillock & wif,' and 'J. Algernon Brewster & valet.' Then the collegians registered: 'Chris Bradley & suit case,' 'Billy Erb & overcoat.'"

**Young Woman's Pretty Tribute.**  
One young woman has named the beautiful teacups on her table after some characteristic of the donor of each. One she calls Loyalty, one Sincerity, one Sweetness. There is also a Jealousy, a Youth, a Hope, an Ambition and Luck.

**Tip for the President.**  
A Pennsylvania landlord, finding that a tenant declined to pay any rent, distrained on the tenant's baby. It is felt that if babies are only made legal tender for rent, President Roosevelt need never trouble himself again about the declining birth rate.

**Horses Home From England.**  
Fanny Dillard, 2:03 1/4; Gallagher, 2:03 1/4; Passing Belle, 2:03 1/4, and Tribby Direct, 2:03 1/4, have been sent back to this country by Louis Winans of Brighton, England.

**Noted Oakley Park Sold.**  
Oakley park, Cincinnati, has been sold to a building syndicate, but Andy Welch hopes to give at least one more grand circuit meet there.

12,000 Acres of Timber Lands in Western Maryland.

This land is accessible to two railroads, one running through a portion of the tract; also to the Chesapeake and Ohio Canal. This property is near the markets of Washington, Baltimore, Philadelphia, Harrisburg, and Pittsburg with intermediate points. It has two saltpetre springs, one of which is hot. Splendid iron ore outcrops, lying in the immediate vicinity of the Anthracite Range. It is safe to say coal will be found on the property. It carries a Sandstone Quarry of five different colors, and an inexhaustible supply of building stone for construction purposes.

**Timber.**  
Oak, poplar, chestnut, hickory, ash, cucumber and pine. About 3/4 of this is white and chestnut oak. The remaining one-fourth being divided up among the other varieties. 8,000 acres of this tract is in the original growth, balance second growth. It is estimated to cut at least 40,000,000 feet of merchantable lumber, and 2,000 mine props, which should net delivered at railroads or canal not less than \$150,000 as props, are at present selling at \$9.00 per hundred. 40,000,000 feet of stumpage, located as this is, near two lines of railroad and so accessible to large markets, should be worth \$2 per M., or \$120,000.

**Land.**  
The land is of excellent quality for general agriculture purposes, being especially adapted to the raising of apples, pears, peaches, and all the smaller fruits and berries.

Climate is excellent, water good and in great abundance from both springs and streams. Everything considered, there is no more desirable tract of land for colonization purposes in the east.

Arrangements could be made with one of the Steamship Companies, engaged in the immigration business, either in Baltimore or New York, to colonize these lands at from \$5 to \$10 per acre after timber has been removed. 5000 acres (2d growth) can be cut at once under contract into mine-props and delivered at the railroads where they bring cash. Stone quarries can be operated under contract, iron and coal mined on a royalty; so no further capital will be required until buyer is ready to build mill, to handle the 8,000 acres of virgin timber.

This valuable timber is offered at \$12.00 per acre, subject to previous sale, with title guaranteed. Terms of payment are 1/3 cash, balance in annual installments to suit purchaser, same bearing interest from date of sale.

2500 acres 12 miles north of Warren, Arkansas on the Saline river which will cut 7000 feet per acre of oak, hickory, and gum, 1000 of hickory per acre; 2500 feet of oak per acre; 2500 feet of gum; all first class timber. This land lies on Saline river, and a mill company is building a railroad, in this part of the country now. The price of this tract is \$8.00 per acre. This is a snap.

40,000 acres fine timber land estimated to cut 8000 feet per acre of oak, gum, hickory, and etc. \$12.00 per acre, situated on the R. R. and lined between the White and Mississippi rivers.

1000 acres extra heavily timbered on White river that is principally oak, \$12.00 per acre.

3000 in same country on river, \$14.00 per acre.

1700 acres on river between 7 and 8000 feet to the acre, \$12.00 per acre.
